- Sales and services stood at Baht 8,350 million, reflecting an increase of 26.44% from the same period of last year.
- This increase was mainly attributable to the increase of selling price during 1st quarter of 2017 in relation to higher crude oil prices.

- The international market sentiment improved subsequently and we saw a strong recovery in demand.

- The Company managed to maintain a stable margin in the tough and challenging market conditions.
- In addition, the company had a gain from the reversal of net realizable value (NRV) provision of Baht 76.69 million on inventory but at the same time incurred hedging cost of Baht 192.40 million mainly due to "mark to market" unrealized loss.
