### Q3 2015 Performance Highlights: Sales & Services Revenue

(Unit: THB Million)

- Sales and services stood at Baht 9,290 million, reflecting a decrease of 18% from the same period last year
- This decrease was mainly attributable to the drop in selling price in line with lower crude price during 3<sup>rd</sup> quarter of 2015 comparing to the corresponding quarter 2014
- Nevertheless, sales volume increased by 20.3% comparing to corresponding quarter because demand in both export and domestic market remains strong in this year
- As a consequence, the Group's operations in refinery, logistic and customer support services were operating at its high level of efficiency

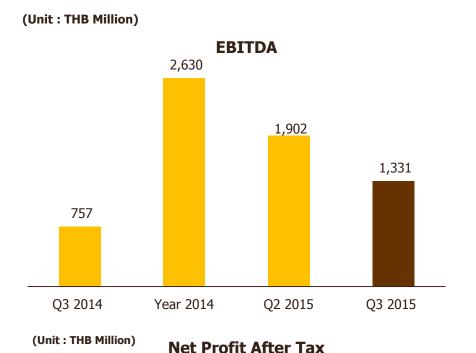

# Q3 2015 Performance Highlights: Operating Gross Profit

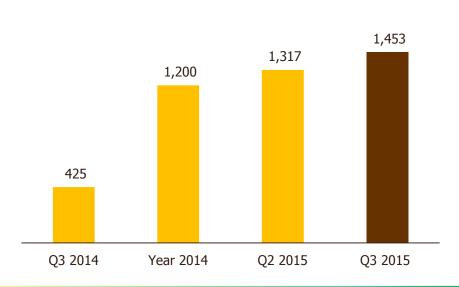

- The significantly improvement of the overall gross profit margin was mainly due to the increase in high margin product in domestic market, conventional product in international market and stable crude product
- The significant improvement of gross profit margin was mainly due to stable asphalt prices arising from strong demand in both export and domestic market and lower crude cost
- The Company achieved a hedging gain of Baht 825 million arising from the ICE Brent price falling from \$63.65/bbl to \$50.5/bbl during Q3
- Under the crude inventory policy, the company has marked (MTM) and provided a net realized value (NRV) provision of Baht 6 million

## Q3 2015 Performance Highlights: EBITDA & Net Profit

 The Group cashflow generated from operations improved significantly to Baht 1,331 million compared to Baht 757 million in the corresponding quarter in 2014. This has positive impact to the consolidated debt to equity ratio

The Net Profit After Tax of Baht 1,453 million for the 3rd quarter 2015 represented earning per share of Baht 0.94 (par value of Baht 1 each) compare to Baht 0.28 per share in corresponding quarter of 2014 attributable to the equity shareholders of the Company

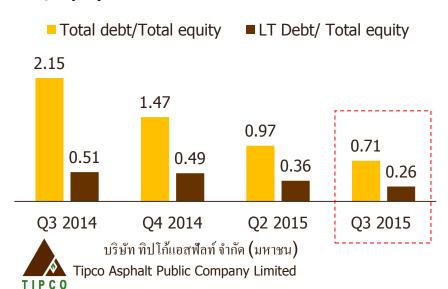

#### Q3 2015 Performance Highlights: Debt to Equity Ratio

#### **ST loan vs Current asset**

Increase in short term loan was normal crude working capital

#### **Debt/ Equity Ratio**

- The Group's consolidated debt to equity ratio (D/E ratio) continued to improve to 0.71 from 1.47 due to prepayment of long-term loan total amount of Baht 527 million
- Furthermore, the LT borrowing/equity ratio has also decreased to 0.26 from 0.49
