Announcement No.4/2560

Road Traffic Safety Management Policy

Tipco Asphalt Group commits to distribute asphalt and petroleum products with responsibility to the economic, social, environment and related stakeholders, to provide maximum road transportation safety while transport drivers must be constantly aware of road traffic safety on road users and other stakeholders. The Group therefore establishes a road traffic safety management policy, with details as follows:

1. Promote risk-based thinking including plans for control and prevention of the risks associated with road transportation of goods.
2. Fully comply with prevailing legal requirements, obligations and relevant regulations.
3. Prevent and reduce environment impacts caused by transportation of goods.
4. Develop and improve quality of transportation service safely and continuously to meet expectations and satisfaction of customers and stakeholders.
5. Constantly train human capitals with safe driving skills while raising their social responsibility awareness related to road traffic.

This policy is effective from 1st June 2017 onwards.

Mr. Chaiwat Srivalwat

Managing Director
