

## Announcement No. 5/2021

### Environmental Policy

TIPCO ASPHALT GROUP strives to conduct businesses across value chain in tandem with environmental impact management, to ensure sustainable preservation of natural resources for the future generations. With this regard, TIPCO ASPHALT GROUP, its subsidiaries, joint ventures, and associated companies, adhere to the following protocols:

1. Proactively and fully comply with regulations, laws, and agreements associated with environments.
2. Support researches and developments on products, services, and procedures that create environmentally friendly innovations.
3. Reduce greenhouse gas emission from business processes, both directly and indirectly.
4. Optimize energy use efficiency while promoting use of alternative energy across business processes.
5. Reduce water and air pollution, as well as residues from waste materials.
6. Promote implementation of circular economy to optimize benefits and efficiencies from natural resource uses.
7. Raise awareness on natural resources and environment protection/ preservation among employees, business partners, and business alliances.
8. Regularly monitor and evaluate environmental operations to ensure continuous improvements.
9. Disclose environmental operation results to the public through Sustainability Reports, in accordance with international standards.

This policy is effective as of 12 May 2021.

(Mr. Chainoi Puankosoom)

Chairman
