The Chairman informed the meeting that during the period from 6th November 2015 to 29th January 2016, the Company informed shareholders that they can propose additional agenda through the news system of the Stock Exchange of Thailand and the Company's website. However, there was no shareholder proposing any matter for consideration to the directors as additional agenda during the aforementioned period.

The Chairman informed the meeting that the Company received a letter from the Securities and Exchange Commission of Thailand requesting the Company not to distribute souvenirs to shareholders who attend the meeting. Therefore, the Company shall comply with such request.

The Chairman then conducted the meeting according to the following agenda:

Agenda 1 **To consider and adopt the minutes of the Extraordinary General Meeting of Shareholders No. 1/2016 held on 5th January 2016**

The Chairman presented to the meeting, for its consideration and adoption, the minutes of the Extraordinary General Meeting of Shareholders No. 1/2016 held on 5th January 2016. Such minutes was prepared and delivered to the Office of the Securities and Exchange Commission, the Stock Exchange of Thailand and the Ministry of Commerce within the timeframes specified in the relevant law and was posted on the Company's website, www.tipcoasphalt.com, on 18th January 2016. The minutes was considered correct and completed by the Board and was recorded in accordance with said meeting and therefore was appropriate to submit to this meeting to consider adopting the same.

The Chairman asked whether shareholders have any question or wish to amend anything in the minutes. There was no shareholder making any enquiry. The Chairman therefore asked the shareholders to vote and the Company's staff to collect the ballots from shareholders voting "Disapproved" and "Abstained" respectively.

The Chairman then informed the meeting that the votes required for passing a resolution under this agenda was majority votes of the shareholders attending the meeting and entitled to vote. Every shareholder was eligible to vote in this agenda.

The Managing Director informed the meeting that there were 41 additional shareholders attending the meeting at the time of this agenda, holding altogether 1,018,021 shares, and therefore the total number of attending shareholders was 640 persons, holding altogether 1,090,670,865 shares.

TIPCO ASPHALT PUBLIC COMPANY LIMITED

The Chairman asked the Managing Director (Mr. Chaiwat Srivalwat) to report the Company's performance for the year 2015 according to the consolidated financial statements of the Company. The essential details of which were as follows:

Description	2015 (Million Baht)	2014 (Million Baht)
Sales & Service Income	37,137	45,727
Gross Profit	7,504	2,005
Selling and Administrative Expenses	1,145	797
Other Expenses / (Other Income)	(89)	(298)
Operating Profit	6,448	1,506
EBITDA	6,375	2,630
Finance Cost	151	222
Corporate Income Tax	1,189	176
Operating Profit after Tax	5,109	1,108
Impairment of Fixed Assets	89	0
Profit from Investment in Associate Company	88	49
Minority Interest	118	43
Net Profit of the Group	5,079	1,200

The Managing Director explained that even though Sales & Service Income for 2015 was lower than that of 2014, the sales volume increased from the previous year by approximately 10 percent. In 2014, the Company's sales volume was approximately 2,030,000 tons, but the Company's sales volume in 2015 was approximately 2,290,000 tons. Decrease in revenue resulted from decrease in asphalt selling price. However, Company's cost of goods sold also decreased due to downtrend in crude prices. In the middle of 2014, crude oil price was USD104 per barrel, but fell to USD58 per barrel and USD36 per barrel respectively in the year 2015. Since the degree of decrease in asphalt selling price is less than that of crude oil price, this resulted in a high profit margin in 2015.

The Chairman asked whether shareholders have any question and that they should state their name first for minutes recording purpose, when they posted their question to the management.

Ms. Viyada Tongsir, a proxy asked the management about the Company's long term crude oil purchase policy, since crude oil is an important factor which affects the Company's profit and is considered as an uncontrollable risk to the Company's business operation. The Managing Director explained that the Company has a clear crude oil purchase policy which was supervised by the Crude Committee of which comprises of senior at the head office and the refinery. The Crude Committee's main objective is to manage risks from the fluctuation of crude prices for each purchase. Normally, the Company purchases 1 cargo of crude per month which amounts to approximately 800,000 - 900,000 barrel. Moreover, the Company has the Hedging Committee, a sub-committee, apart from the Crude Committee which is in charge of hedging for every crude cargo purchase.

Mr. Anuwat Chinpiriya, a shareholder asked about the growth rate of the Company's net profit in 2015 compared to that in 2014, and also asked about the progress of the acquisition of businesses which the Company asked for approval from the shareholders at the Extraordinary General Meeting. The Managing Director responded that the Company's net profit in 2015 grew 323 percent from 2014. With respect to the business acquisition, the Company has already made all payments for the five companies in March 2016. The performance of the acquired companies will be consolidated into the Company's accounts effective on 1st January 2016. The performance of the five companies was in line with the projections given to the Company. Also, it is expected that the acquisition of the companies will increase the Company's sales volume approximately by 200,000 tons per year.

The same shareholder asked whether the risk of crude oil prices affects the Company's business operations and growth. The Managing Director responded that the asphalt production costs decreased due to the significant decrease in crude oil prices. However, the price of asphalt products is still good since the market's demand is still strong. As a result, the Company made significant profits in 2015. Therefore, crude price has low correlation with asphalt price, because asphalt price depends heavily on the demand and supply in each market. In addition, the Company's hedging policy for each crude purchase protects the Company from crude price fluctuation, which could affect the Company's business operation. The Company has adhered to this crude management policy.

The Chairman invited other shareholders to make additional enquiries in relation to this agenda. There was no additional shareholder making any additional enquiry.

The Chairman therefore informed the meeting that this agenda was for acknowledgement purpose only.

The meeting acknowledged the Company's performance for the year 2015 as reported.

The Chairman asked the meeting to consider and approve the Consolidated Statements of Financial Position and Comprehensive Income of the Company as at 31st December 2015 per details in the 2015 Annual Report which has been sent to the shareholders together with the invitation notice to this meeting. Such financial statements were reviewed by the Audit Committee and certified by the Company's auditor as materially correct in accordance with the Thai Financial Reporting Standards. Also, such financial statements were approved by the Company's board of directors. The Chairman asked the Managing Director to provide a summary of the Consolidated Statements of Financial Position and Comprehensive Income of the Company.

The Managing Director reported to the meeting as per the following summary:

The Chairman then invited questions from the shareholders in relation to this agenda.

The Managing Director responded that the management is not able to answer this question, because it is prohibited by the regulations of the Stock Exchange of Thailand. The proxy further asked about the Company's sale plan and its costs for 2016. After collecting the voting ballots and checking the votes, the result was that:

**Agenda 4 To consider and approve the investment and divestment plans for 2016**

The Chairman reported to the meeting that, in compliance with Section 34 of Company's Articles of Association, the Company shall have resolution from shareholders for annual investment and divestment plan.

The Chairman then asked the Managing Director to present the investment and divestment plans for 2016.

Description of Investment	2016 (Million Baht)	2015 (Million Baht)
Land improvement and construction of new buildings	92.8	229.1

The Managing Director explained that the Company planned to invests in machinery in the amount of Baht 600 million, which shall be invested in machines for the refinery in Malaysia for Baht 423 million.

Description of Divestment	2016 (Million Baht)	2015 (Million Baht)
Land	204	264
Total Divestment Budget	204	264

The Managing Director explained that the Company plans to sell two plots of land, with the value of approximately Baht 204 million.

The Chairman informed the meeting that the Company's board of directors recommends that the meeting should approve the investment and divestment plans for 2016. The Chairman then invited questions from the shareholders in relation to this agenda.

Mr. Kiat Sumongkolthanakul, a proxy asked the management the following questions. The first question was if the proportion of investment and divestment plan is significant compared to the Company's assets, whether the Company is required to engage an independent financial advisor to make an assessment for these transactions. The second question was the type of business the Company planned to acquire and whether the Company has made an assessment and evaluation of the benefits of the acquisition. The Managing Director responded to the first question that with respect to the divestment of lands, it is the Company's common practice to engage an independent appraiser to provide an appraisal of the lands' value, and such appraisal is prepared in a form of a report, which will be presented to the Company's board of directors. The Managing Director responded to the second question that the Company only has plans to make further acquisition of businesses that could be (i) asphalt business or (ii) supplemental to the asphalt business.

The same proxy further asked whether the sales and purchase of assets is subject to evaluation from a financial advisor and whether it would be submitted to the shareholder's meeting. The Managing Director responded that the acquisition and disposal of assets is usually evaluated by a financial advisor and must comply with the certain regulations of the Stock Exchange of Thailand and the Securities and Exchange Commission. However, whether the acquisition or disposal has to ask for shareholder's resolution depends on the value of the transaction which is clearly specified in the relevant regulations. The proxy stated that the figures specified in the matrix were not round numbers, so the Company must have specific plans for the acquisition of businesses. The Managing Director explained that the figures were not round numbers because it was converted from USD and that the Company only wants to reserve money in case of future business acquisitions.

The Chairman invited other shareholders to make additional enquiries in relation to this agenda. There was no additional shareholder making any additional enquiry.

The Chairman therefore asked the shareholders to vote and the officers collected the ballots from shareholders voting "Disapproved" and "Abstained" respectively.

The Chairman informed the meeting that the votes required for passing the resolution under this agenda were votes of not less than three-fourths of the total number of the votes of the shareholders attending the meeting and entitled to vote. Every shareholder was eligible to vote in this agenda.

The Managing Director informed the meeting that there were 24 additional shareholders attending the meeting at the time of this agenda, holding altogether 124,720 shares, and therefore the total number of attended shareholders was 701 persons, holding altogether 1,092,018,676 shares.

Agenda 5 **To consider and approve the allocation of profit and final dividend payment for the year 2015 as well as to acknowledge the payment of interim dividend**

The Chairman informed the meeting that pursuant to Section 116 of the Public Limited Company Act of 1992, the Company is required to set aside its annual net profits as legal reserve for not less than 5 percent of the annual net profits after loss carried forward (if any) until the reserve reaches 10 percent of the registered capital. As at 31st December 2015, the statutory reserve of the Company was Baht 172 million, which is higher than 10 percent of the registered capital. Therefore, the Company has no obligation to set aside additional statutory reserve.

The Chairman further informed the meeting that the Company has a policy to pay dividend of not less than 60 percent of its stand-alone financial statement's net profit each year. However, the actual dividend payment depends on cash flow, investment plan of the Company, terms and conditions of agreements entered by the Company, together with all other conditions of necessity and suitability in the future. The Chairman asked the Managing Director to present the final dividend payment for the year 2015.

The Managing Director reported to the meeting that in the year 2015, interim dividend was distributed to the Company's shareholders twice. The first interim dividend distribution was approved by the Board of Directors' meeting No. 4/2015 held on 13th August 2015 and the interim dividend payment was made on 10th September 2015 with a total of 1,542,931,070 shares at Baht 0.30 per share, or Baht 462,879,321. The second interim dividend distribution was approved by the Board of Directors' meeting No. 5/2015 held on 13th November 2015 and the interim dividend payment was made on 9th December 2015 with a total of 1,543,850,070 shares at Baht 0.20 per share or Baht 308,770,014. In this regard, the total interim dividend payment for 2015 was at Baht 0.50 or a total of Baht 771,649,335.

The Managing Director further stated that the Company's Board of Directors has passed a resolution to distribute the final dividend payment to shareholders at Baht 0.40 per share or a total of Baht 617,576,628. The final dividend payment will be made on 29th April 2016. If the meeting approved the final dividend payment, the total dividend payment for the year 2015 would amount to Baht 0.90 per share or a total of Baht 1,389,225,963 which would accounted for 35 percent of the company-alone net profit of 2015.

The Chairman further asked the shareholders to consider and approve the final dividend payment for the year 2015 at Baht 0.40 per share or a total of Baht 617,576,628. The Record Date of the share register book to determine the name of shareholders who have the rights to receive dividend payment was on 3rd March 2016 and the Book Closing Date for compiling the list of shareholders in accordance with Section 225 of the Securities and Exchange Act was 4th March 2016. The dividend payment will be made on 29th April 2016.

The Chairman then invited questions from the shareholders.

A shareholder (name not legible) asked why the total dividend payment of the year 2015 only accounts for 35 percent of its stand-alone financial statement's net profit 2015 since the Company's policy is to pay dividends of not less than 60 percent of its stand-alone financial statement's net profit each year. The Managing Director responded that even though the Company has a policy to pay dividends of not less than 60 percent of its stand-alone financial statements, this is subject to cash flow, investment plans of the Company, terms and conditions of agreements entered by the Company including on the conditions of necessity and suitability. The Managing Director further explained that the Company has investment plans of approximately Baht 1,735 million as reported in the previous agenda. For this reason, the Company wants to reserve money from its net profit for such expenditures.

The same shareholder asked about the rate of tax credit and whether the Company will distribute dividends of not less than 60 percent of its stand-alone financial statements in the future. The Chief Executive Officer responded that the rate of tax credit is 20 percent. The Chief Executive Officer further explained that in the year 2015, the Company's total cash flow was approximately Baht 6,000 million. However, this sum was used for repayment of bank debts approximately Baht 2,000 million; investment approximately Baht 1,000 million; payments for the acquisition of business in Vietnam, Indonesia and Singapore approximately Baht 2,300 million. Therefore, the remaining for distribution of dividend to shareholders approximately Baht 1,400 million. This is the reason why the distribution of dividend accounted for only 35 percent of the Company-alone net profits. Nevertheless, since the Company's debt has significantly decreased, if the Company's performance in 2016 is good, it is possible dividend payout ratio to be higher this year.

Mr. Anuwat Chinpiriya, a shareholder asked whether the Company has studied alternatives for business expansion without affecting the benefit of shareholders, such as issuing debentures which has a lower interest rate than banks. The Chief Executive Officer responded that, currently, the Company has two types of debt. The first one is short term debt for the purchase of crude which is denominated in USD and has an interest rate of approximately 1 percent. The second type of debt is the long term debt which can be divided into (i) debt denominated in THB and (ii) debt denominated in USD. With respect to the debt denominated in THB, the Company has already repaid the debt in full. With respect to the debt denominated in USD, the interest rate does

not exceeding 2.5 percent. Therefore, even if the Company issues debentures in Thailand, the existing rate of interest would be still be lower than the debentures. Nevertheless, the Chief Executive Officer thanked the shareholder for the recommendation and will take this suggestion into consideration.

Mr. Suwat Krasianapibarn, a shareholder thanked the Board of Directors for their hard work and suggested that if the Company wanted to expand its business, another alternative would be to increase its capital. This would enable the Company to have funds to expand its business and the Company would also be able to increase its dividend payment to its shareholders. Chief Executive Officer thanked the shareholder for the recommendation and will take this suggestion into consideration.

The Chairman invited other shareholders to make additional enquiries in relation to this agenda. There was no additional shareholder making any additional enquiry.

The Chairman therefore asked the shareholders to vote and the officers collected the ballots from shareholders voting "Disapproved" and "Abstained" respectively.

The Chairman then informed the meeting that the votes required for passing a resolution under this agenda was majority votes of the shareholders attending the meeting and entitled to vote. Every shareholder was eligible to vote in this agenda.

The Managing Director informed the meeting that there were 4 additional shareholders attending the meeting at the time of this agenda, holding altogether 4,400 shares, and therefore the total number of attended shareholders was 705 persons, holding altogether 1,092,023,076 shares.

After collecting the voting ballots and checking the votes, the result was that:

RESOLUTION: The meeting by majority votes resolved that the allocation of profit and final dividend payment for the year 2015 be approved as proposed by the Chairman as per the following voting details:

- Shareholders who voted "Approved" under this agenda, held altogether 1,086,297,664 shares, representing 99.8923% of the total number of shares attending this meeting and entitled to vote;

- Shareholder who voted "Abstained" under this agenda, held altogether 5,300 shares, representing 0.0005% of the total number of shares attending this meeting and entitled to vote.

Agenda 6 To consider and approve the appointment of auditors and auditing fee for the year 2016

The Chairman informed the meeting that pursuant to Section 120 of the Public Limited Companies Act, the annual general meeting is required to appoint the auditors and audit fee annually. This agenda shall be divided into two sub agendas as follows:

The Chairman asked that the Managing Director to present the essential details of this agenda. The Managing Director reported to the meeting that, since 2005, the Audit Committee has selected EY Office Limited to be the external auditor of the Company and its subsidiaries. The auditors would be changed every 5 years to comply with the requirement of the Securities Exchange Commission. As EY Office Limited is a reliable institution with excellent reputation and has been performing well as auditor for 11 consecutive years, the board of directors agreed with the Audit Committee's recommendation on the appointment of the following auditors from EY Office Limited to be the Company's auditors for the year 2016; namely Mr. Supachai Phanyawattano, Certified Public Accountant No. 3930 and/or Ms. Siraporn Ouaanunkun, Certified Public Accountant No. 3844 and/or Ms. Supanee Triyanantakul Certified Public Accountant No. 4498. The 3 auditors neither have relationship with nor interest in the Company, the Company's subsidiaries, management or major shareholders of the Company as well as other related persons.

The Chairman informed the meeting that the boards of directors have approved the appointment of the said auditors as the Company's auditors for the fiscal year end on 31st December 2016.

The Chairman asked whether any shareholder has a question or wish to enquire anything in this agenda. There was no shareholder asking question or making an enquiry.

The Chairman therefore asked the shareholders to vote and the officers would collect the ballots from shareholders voting "Disapproved" and "Abstained" respectively.

The Chairman then informed the meeting that the votes required for passing a resolution under this agenda was majority votes of the shareholders attending the meeting and entitled to vote. Every shareholder was eligible to vote in this agenda.

The Managing Director informed the meeting that there was no additional shareholders attending the meeting at the time of this agenda, holding altogether 41,800 shares, and therefore the total number of attended shareholders was 709 persons, holding altogether 1,092,064,876 shares.

The Managing Director asked the meeting to consider approving the audit fee of Baht 2.25 million payable to EY Office Limited for performing the annual auditing work for the year 2016, which the Audit Committee has approved this fee as appropriate to the volume of work undertaken by the auditors. The Managing Director explained that audit fee slightly increases because of additional work from the acquisition of companies abroad this year.

The Chairman asked whether any shareholder has a question or wish to enquire anything in this agenda.

Mr. Kiat Sumongkolthanakul, a proxy asked the management to explain what items are included in other service fee which the proxy understands that it is extra charge for overtime work, the cost of other service fees from the previous year and whether the acquisition of the business will increase the other service fees. The Chief Executive Officer responded that other service fees are fees for services apart from the standard auditing work since the Company may require additional advice on tax or accounting issues. However, in the year 2015, the Company didn't have any expenses incurred from other service fees and the auditor has never charged for overtime work.

The Chairman asked whether any shareholder has any additional enquiries in this agenda. There was no additional shareholder making any additional enquiry.

The Chairman therefore asked the shareholders to vote and the officers collected the ballots from shareholders voting "Disapproved" and "Abstained" respectively.

7.1 Payment of extraordinary variable remuneration for members of all sub-committees only for the operational result of the Company in fiscal year 2015

The Chairman asked the Managing Director to present the essential details of this agenda. The Managing Director reported to the meeting that the Company has three sub-committees which comprised of the Nomination and Remuneration Committee, the Corporate Governance Committee and the Audit Committee. The Managing Director asked the meeting to consider and approve the payment of extraordinary variable remuneration for members of all sub-committees for the operational result of the Company in fiscal year 2015 as shown in the matrix below:

Director	Description	Extraordinary Variable Remuneration (Baht)
1. Mr. Nippon Suthimai	Chairman of the Audit Committee	500,000
2. Mr. Phirasilp Subhapholsiri	Audit Committee Member	400,000
	Chairman of the Corporate Governance Committee	100,000
3. Mr. Nopporn Thepsithar	Audit Committee Member	400,000
	Chairman of the Nomination and Remuneration Committee	20,000
4. Mr. Parnchalerm Suthatham	Audit Committee Member	400,000
	Nomination and Remuneration Committee Member	20,000
5. Mrs. Anne-Marie Machet	Corporate Governance Committee Member	80,000
	Nomination and Remuneration Committee Member	20,000
6. Mr. Jacques Marechal	Corporate Governance Committee Member	80,000
7. Mr. Chaiwat Srivalwat	Corporate Governance Committee Member	80,000
8. Mr. Jacques Pastor	Nomination and Remuneration Committee Member	20,000
	Total	2,120,000

The Chairman informed the meeting that the Board of Directors recommends that the meeting should approve the payment of extraordinary variable remuneration to members of all sub-committees for the operational results of the Company for the year 2015 in the total amount of Baht 2,120,000 as specified in the table above.

The Chairman asked whether any shareholder has any additional enquiries in this agenda.

Mr. Kiat Sumongkolthanakul, a shareholder proxy stated that the increase in the Company's stock price from Baht 6.5 per share to Baht 40.5 per share shouldn't be included as a reason for the payment of extraordinary variable remuneration for non-executive members of the Board of Directors in agenda 7.2 since the Company's stock has already come down. The proxy further asked whether there will be an extraordinary variable remuneration to members of all sub-committees next year. He stated that the Company should not pay an extraordinary variable remuneration, because the Company is not able to pay dividends of not less than 60 percent of its Company-alone net profit as specified in the Company's policy. The Managing Director agreed that the Company's stock price should not be used as a reason for the payment of extraordinary variable in agenda 7.2 as suggested by the proxy and that it was mistakenly written in the invitation to the meeting. The Chief Executive Officer further explained that an extraordinary variable remuneration has never been paid before, but because the Company's performance for the year 2015 was extraordinary compared to previous years which resulted from much contribution from members of the sub-committees. The Board of Director resolved that an extraordinary variable remuneration should be paid to sub-committee members. Moreover, in 2008 and 2009, the Company's Board of Directors and its sub-committee members volunteered to lower their remuneration due to the loss incurred by the Company that year. The Chief Executive Officer also explained that the payment of an extraordinary variable remuneration depends on the Company's performance for that year.

Ms. Viyada Tongsir, a proxy asked about the factors for the consideration of the extraordinary variable remuneration, the rate of increase for the extraordinary variable remuneration and the relation between agenda 7.4 and 7.1. The Chief Executive Officer responded that the extraordinary variable remuneration shall not exceed the total annual fixed remuneration of the sub-committee members. In comparison with other companies in the SET which has the same or similar level of revenue, the Company's remuneration for sub-committee members is relatively low. Therefore, it was suggested that the Company should pay an extraordinary variable remuneration to its sub-committee members. The Chief Executive Officer further explained that agenda 7.4 does not have any relation to agenda 7.1.

A shareholder stated that since the sub-committee members of the Company receive an extraordinary variable remuneration, the Company should take into account the benefits of its shareholders and comply with its policy to pay dividends of not less than 60 percent of its stand-alone financial statement's net profit.

Mr. Kiat Sumongkolthanakul, a proxy suggested to the management that an extraordinary variable remuneration should be paid on the condition that the Company's performance is good and the shareholders have received dividend which accounts for not less than 60 percent of the Company's stand-alone financial statement's net profit. The Chief Executive Officer stated that the Company will take this suggestion into consideration.

The Chairman asked whether any shareholder has any additional enquiries in this agenda. There was no additional shareholder making any additional enquiry.

The Chairman therefore asked the shareholders to vote and the officers would collect the ballots from shareholders voting "Disapproved" and "Abstained" respectively.

The Chairman then informed the meetings that the votes required for passing a resolution under this agenda were votes of not less than two-thirds of the total number of the votes of the shareholders who are attending the meeting by proxy or physical presence and entitled to vote. Every shareholder was eligible to vote in this agenda, except for the following shareholders who were the directors relating in the relevant sub-agenda:

- Mr. Chaiwat Srivalwat, holding 1,200,000 shares
- Mr. Jacques Pastor, holding 500,000 shares

The Managing Director informed the meeting that there was 6 additional shareholders attending the meeting at the time of this agenda, holding altogether 57,330 shares, and therefore the total number of attended shareholders was 715 persons, holding altogether 1,092,122,206 shares.

After collecting the voting ballots and checking the votes, the result was that:

RESOLUTION: The meeting by votes of not less than two-thirds of the total number of the votes of the shareholders who are attending the meeting by proxy or physical presence and entitled to vote resolved that payment of extraordinary variable remuneration for members of all sub-committees for the operational result of the Company in the year 2015 be approved as proposed as per the following voting details:

- Shareholders who voted "Approved" under this agenda, held altogether 1,085,814,266 shares, representing 99.9951% of the total number of shares attending this meeting and entitled to vote;
- Shareholders who voted "Disapproved" under this agenda, held altogether 7,010 shares, representing 0.0006% of the total number of shares attending this meeting and entitled to vote; and

7.2 Payment of extraordinary variable remuneration for non-executive members of the Board of Directors for the fiscal year 2015 operational result of the Company

The Chairman asked that the Managing Director to present the payment of extraordinary variable remuneration for non-executive members of the Board of Directors for the fiscal year 2015 operational results of the Company.

TIPCO ASPHALT PUBLIC COMPANY LIMITED

The Managing Director reported to the meeting that six years ago, the Company's mission was to become a leader of the asphalt business in the Asia Pacific region and its vision was to distribute at least 2 million tons of asphalt products by 2015 while maintaining the highest Corporate Social Responsibility standards at all times. In 2014, the Company was able to achieve its mission and vision, which was a year earlier than the expected timeframe namely the Company was able to distribute 2 million tons of asphalt products and was certified with ISO26000, which is an international standard on corporate social responsibility. Moreover, the Company has launched its 2020 mission and vision. The 2020 mission states that the company shall become globally preferred integrated asphalt and petroleum related product company and its 2020 vision is to distribute 6 million tons of asphalt and petroleum products across 5 continents by 2020 in a sustainable and responsible manner. To achieve the 2020 vision and mission, the Company's Board of Directors approved the vision and mission for the year 2020; and has issued 9 strategic plans to accomplish the vision and mission by 2020.

The Managing Director informed the meeting that the extraordinary variable remuneration in this agenda is for non-executive members of the Board of Directors and has the following details:

Director	Description	Extraordinary variable remuneration (Baht)
1. Ms. Laksana Supsakorn	Chairman	500,000
2. Mr. Nipphon Suthimai	Independent Director	250,000
3. Mr. Nopporn Thepsithar	Independent Director	250,000
4. Mr. Panchalerm Suthatham	Independent Director	250,000
5. Mr. Phirasilp Subhapholsiri	Independent Director	250,000
6. Mrs. Anne-Marie Machet	Independent Director	250,000
7. Mr. Koh Ban Heng	Independent Director	250,000
8. Mr. Hervé Le Bouc	Director	250,000
9. Mr. Jacques Leost	Director	250,000
10. Mr. Chainoi Puankosoom	Independent Director	62,500
	Total	2,562,500

The Chairman informed the meeting that the Board of Directors recommends that the meeting should approve the payment for non-executive members of the Board of Directors for the fiscal year 2015 operational result of the Company in the total amount of Baht 2,562,500 as specified in the matrix above.

The Chairman asked whether any shareholder has any additional enquiries in this agenda.

Mr. Nikom Pakasantu, a shareholder, asked the management to explain the remuneration given to the directors of the Company and pointed out that page 61 of the 2015 Annual Report specifies that directors are given three types of remuneration which are fixed remuneration, variable remuneration and extraordinary variable remuneration. The Managing Director responded that variable remuneration can be compared to an employee's bonus which was approved by the previous shareholder's meeting on the condition that the Company's performance has to be good. However, in 2015, the Company's revenue was exceptionally good, so an extraordinary variable remuneration, a total of Baht 2,562,500, should be paid to the Company's Board of Director as an extra bonus apart from the variable remuneration.

Mr. Suwat Krasianapibarn, a shareholder asked whether the Company had a revenue target for the year 2020 apart from a sales volume target. The Managing Director responded that compared to the previous year the Company's sale volume increased by 10 percent but, its revenue which resulted from the significant drop of crude prices. This resulted from fluctuation in asphalt selling price which cannot be controlled. For this reason, the Company does not evaluate its performance based on total revenue but rather on sales volume (tons). The same shareholder further asked whether the Company has a profit forecast apart from a target sale. The Managing Director responded that the Company does not have a profit forecast.

Mr. Kittichai Ekpaiboonkul, a shareholder, stated to the meeting that the director's remuneration are quite high but, the dividend paid to the shareholders is not as high. The shareholder requested that the Company should improve on this matter. Moreover, the low dividend might be the reason for the decline in the Company's stock price. The same shareholder also suggested that the Company should consider other alternatives to expand its business such as issuing warrants or debentures so that the Company's profits can be used to pay dividend to shareholders. The Managing Director thanked the shareholder for the suggestion and stated that the Company will take this suggestion into consideration.

Mr. Kiat Sumongkolthanakul, a proxy, stated to the meeting that the Company's reason for extraordinary variable remuneration to its directors and awarding its employees with a bonus was unreasonable, because the employees and directors of the Company received higher remuneration, but its shareholders was not awarded with higher dividend. In addition, compared to the previous year, the shareholders received a lower dividend payment. In other words, the total dividend payment for 2014 accounted for 46 percent of the Company-alone net profit while the total dividend payment for 2015 accounted for 35 percent of the Company-alone net profits. The Chief Executive Officer explained that the Company's net profit in 2014 was approximately Baht 1,200 million, but the Company's net profit in 2015 was approximately Baht 5,000 million, which was why the percentage in the year 2015 was lower than the previous year even though the amount of dividend paid was higher.

The Chairman asked whether any shareholder has any additional enquiries in this agenda. There was no additional shareholder making any additional enquiry.

The Chairman therefore asked the shareholders to vote and the officers collected the ballots from shareholders voting "Disapproved" and "Abstained" respectively.

The Chairman then informed the meetings that the votes required for passing a resolution under this agenda were votes of not less than two-thirds of the total number of the votes of the shareholders who are attending the meeting by proxy or physical presence and entitled to vote. Every shareholder was eligible to vote in this agenda, except for the following shareholder who was a director relating in the relevant sub-agenda:

- Ms.Laksana Supsakorn holding 14,000,000 shares

The Managing Director informed the meeting that there was 1 additional shareholder attending the meeting at the time of this agenda, holding altogether 7,000 shares, and therefore the total number of attended shareholders was 716 persons, holding altogether 1,092,129,206 shares.

After collecting the voting ballots and checking the votes, the result was that:

RESOLUTION: The meeting by votes of not less than two-thirds of the total number of the votes of the shareholders who are attending the meeting by proxy or physical presence and entitled to vote resolved that payment of extraordinary variable remuneration for non-executive members of the Board of Directors for the operational result of the Company in the year 2015 be approved as proposed as per the following voting details:

- Shareholders who voted "Approved" under this agenda, held altogether 1,073,379,766 shares, representing 99.9818% of the total number of shares attending this meeting and entitled to vote;
- Shareholders who voted "Disapproved" under this agenda, held altogether 131,010 shares, representing 0.0122% of the total number of shares attending this meeting and entitled to vote; and
- Shareholders who voted "Abstained" under this agenda, held altogether 64,230 shares, representing 0.0060% of the total number of shares attending this meeting and entitled to vote.

7.3 Fixed Remuneration for all the members of the Board of Directors and its sub-committees for 2016

The Chairman asked the Managing Director to summarize the essential details of this agenda which can be summarized as shown in the matrix below:

Description	2016 (Baht)	2015 (Baht)
Chairman	500,000	500,000
Independent Director (6 x 250,000)	1,500,000	1,500,000
Executive Director / Director (8 x 250,000)	2,000,000	2,000,000
Chairman of Audit Committee	500,000	500,000

Corporate Governance Committee members (3 x 80,000)	240,000	240,000
Total	6,200,000	6,120,000

The Managing Director reported to the meeting that the only item which has been raised compared to the previous year was the fixed remuneration for the Nomination & Remuneration Committee members. The fixed remuneration in 2015 was Baht 20,000 per year and was significantly lower than the average remuneration given by other companies registered in the SET. Therefore, it was recommended that the fixed remuneration for the Nomination & Remuneration Committee members should be raised to Baht 40,000 per year.

The Chairman informed the meeting that the Company's Board of Directors recommended that the Meeting should approve the fixed remuneration for all the members of the Board of Directors and its sub-committees for 2016, which accounts for a total of Baht 6.2 million and adjust the fixed remuneration for the Nomination & Remuneration Committee members from Baht 20,000 to Baht 40,000 per person/per year because the previous remuneration at Baht 20,000 was much lower than the average remuneration given by companies registered in the SET in 2014 at Baht 40,000 per person/per year.

The Chairman asked whether any shareholder has a question or wish to enquire anything in this agenda.

Ms. Maliwan Chitriyartham, a shareholder asked why the Chairman of Corporate Governance Committee received remuneration and stated that the proxy attended meetings of other public companies, but none of them approved remuneration for the Chairman of Corporate Governance Committee. The Managing Director responded that Corporate Governance Committee is one of sub-committee of the Company. 7.4 Variable Remuneration for all the members of the Board of Directors for the performance of 2016

The Chairman informed the meeting that the Company's Board of Directors recommended that the Meeting should approve on condition that the Company is profitable and subject to approval of the Board of Directors, variable remuneration payments of not exceeding 1 time of the total annual fixed remuneration of all members of the Board of Directors shall be considered and paid to all members of the Board of Directors by the Company. If the director was appointed for less than a year, the director shall be paid a variable remuneration on a pro rata basis.

The Chairman asked whether any shareholder has a question or wish to enquire anything in this agenda.

Ms. Viyada Tongsiri, a proxy, suggested to the management that the variable remuneration for the members of the Board of Directors should not only be based on the condition that the Company is profitable. It should also be based on the condition that the Company's profit has increased compared to the previous year. The proxy further asked the management to explain factors that are taken into consideration for the payment of variable remuneration for members of the Board of Directors. The Managing director stated that the Company will take this suggestion into consideration.

The Managing Director informed the meeting that there was a mistake in the invitation to this meeting. That is, the invitation should have had these additional wordings:

"...subject to the approval of the Board of Directors and only for seating directors are entitled to receive remuneration. For directors whose directorship is less than one year, he or she shall receive his/her remuneration based on a pro-rata basis."

Mr. Nikom Pakasantu, a shareholder stated to the meeting that the remark on page 61 of the Annual Report 2015 states that variable remuneration is given to every member of the Board of Directors. However, some directors attended less meetings than others, but will receive the same rate of variable remuneration. For example, Mr. Hervé Le Bouc only attended one meeting as stated in page 56 of the Annual Report 2015. He further suggested that payment of variable remuneration should be based on attendance. Moreover, variable remuneration shall not exceed 1 time of the total annual fixed remuneration of all members of the Board of Directors. In other words, variable remuneration may be less than 1 time of the total annual fixed remuneration. The shareholder suggested that the payments of variable remuneration should be based on the Company's profit. The Managing Director stated that the Company will take this suggestion into consideration.

A shareholder, stated that it believes that the company should abide to the good governance principle so that shareholder's interest is protected. The Managing Director stated that the Company noted for the recommendation.

The Chairman invited other shareholders to make additional enquiries in relation to this agenda. There was no additional shareholder making any additional enquiry.

The Chairman therefore asked the shareholders to vote and the officers collected the ballots from shareholders voting "Disapproved" and "Abstained" respectively.

Agenda 9

Other matters, if any

The Chairman asked whether any shareholder has a question or wish to enquire anything in this meeting.

The Managing Director has 2 matters to report to the meeting. The first matter is that the Company has participated in the anti-corruption campaign with the Institute of Directors (IOD). The campaign will provide 5 different rankings for participating companies. In the beginning, the Company was given the first ranking. After the Company issued clear policies against corruption and conveyed the policies to the employees and the shareholders, the Company was given the third ranking.

The second matter that the Managing Director reported to the meeting is the domestic and international market for asphalt products. For the domestic market, the Company's performance is still strong, because the government still continues its policies to allocate its budget for infrastructure investment, including road construction and maintenance. For the international market, it is necessary to consider 2 parts. The first part is the business that the Company recently acquired. It was expected that the five companies that the Company acquired may result in additional sale of 200,000 tons for the Company. The second part is the export of asphalt products. For the past quarter, the exports remained moderate, because it is winter in China and the northern part of Vietnam, which resulted in low sale volume. However, in April and May which mark the beginning of summer, the sale volume should pick up, because it is time for the construction work to start in those countries. However, the sale volume in Australia remains strong, because it is summer in Australia. The sale volume in each country will alternate, based on different timing for summer. In conclusion, international sale volume in 2016 should be similar to 2015, which is approximately 2,290,000 ton. If the sale volume of the acquired business is included, this figure will increase by 200,000 tons.

In addition, the Company's vessel business has exceptional performance. The Company has 9 vessels and has purchased 1 additional vessel, which will be delivered and in operation in 2017. The new vessel will be one of the largest bitumen tankers in South East Asia. The total carrying capacity of the Company's vessels is not sufficient for the Company's requirement. That is, the Company's carry capacity can only meet 55 – 60 % of the Company's requirement, and the Company needs to charter in the remaining 40%. This is because the Company needs to transport asphalt from both its own refinery and other refineries both in Thailand and abroad.

Ms. Viyada Tongsir, a proxy, asked about the level of crude prices which the Company considers to be beneficial. The Chief Executive Officer responded that the Company's performance depends on the costs and revenue. The Company has planned to control the costs. That is, for each purchase of crude, there will be a committee to carefully consider the appropriate price of crude that the Company should purchase and can still make a profit, and the Company has a hedging policy in relation to crude price fluctuation as well. With respect to revenue, this depends on the demand for asphalt products in each country. At this moment, the demand for asphalt is still strong. The countries that are the company's biggest export market are Indonesia, China, Malaysia, Australia and Vietnam, respectively.

Mr. Nakarin Wanfuangfu, a shareholder, asked about privileges on import duty exemption, when the Company will be able to enjoy such privileges, and the amount of tax savings. The Managing Director responded that, on 27 January 2016, the Company received approval to participate in a tax privilege program with the Revenue Department, because the Company is qualified under the criteria for an international headquarter. As such, the net profit from the sale and purchase outside Thailand will be exempt from income tax. The shareholder asked about the Company's tax liability in the past. The Managing Director responded that the Company is subject to the corporate income tax at the rate of 20%, but the Company will no longer be required to pay corporate income tax on profits generated outside Thailand. Currently, the Company's international sale volumes accounts for 78% of the total sale volume, and the domestic sale volumes accounts for the remaining 22%. Last year, the Company paid Baht 1,175 million in corporate income tax. The shareholder asked whether the figure for corporate income tax includes taxes on net profits from sale outside Thailand, and whether it is possible to calculate the tax savings from the tax privilege program. The Chief Executive Officer explained that the corporate income tax is for the whole company, but that figure should not be used for the calculation of tax saving, because the profit margin for domestic sale is higher than that of international sale.

The same shareholder asked about the progress of the initiative to mix asphalt with rubber, and whether such product has a good profit margin. The Managing Director responded that it is one of the government's policies to use a mixture of asphalt and rubber in various projects, so the sale of para-asphalt products is very good.

Mr. Chainarong Rojawat, a shareholder, asked about the possibility of losses from hedging. The Managing Director responded that a hedging transaction could result in either gains or losses. The Chief Executive Officer explained that, in the past 3 years, the Company had not recorded any hedging losses. Last year, the Company had a hedging gain of Baht 800 million.

Ms. Salin Tantipitakchote, a shareholder, noticed that the date for a position of Mr. Sitilarb Supsakorn in the invitation notice to this meeting does not appear to be correct. The Managing Director acknowledged this note.

There were no other matters additionally proposed nor further questions raised by the shareholders.
